

Chris and his team have catered our annual Gala night at TSB arena for 1200 guests since 2007. Chris and Katrina are a pleasure to deal with, the food is always excellent and the service perfectly executed. Chris Boswell Fine Catering is our caterer of choice in Wellington.

Thanks Chris. You and Katrina and your staff are the most awesome caterers in town and we couldn't have been happier with everything! We were thrilled with the food, the service, the smiles and the little extras... You always seemed to be on top of the game.

"We chose Chris Boswell to cater for a special end of conference dinner on Guy Fawkes' night at the top of the Majestic Centre. Chris made everything so simple for us. He liaised with the venue managers, arranged for all the necessary equipment to be brought in, designed a superb menu with matching wines, and cooked and presented it all to perfection! My colleagues from around New Zealand and Australia were thoroughly impressed. The meal provided a perfect introduction to the magical fireworks that followed."

We chose Chris Boswell Catering for our Big Day, and were absolutely impressed in every aspect. The food was amazing, everyone commented on the quality of the meal. The service was outstanding, everything ran very smoothly and was very professional. The service staff were responsive during the night and incredibly helpful, over and above our expectations. Chris and Katrina were great to deal with, giving excellent advice and guidance, and being flexible with meeting our needs to achieve what we wanted. Would highly recommend'.

Everyone we have spoken to since the day has commented on the excellence of the food. We've also received a lot of comments about how good the service was. People were impressed by the way they could be down in the far corner of the bowling greens but glasses would still be magically refilled, and the finger food made the rounds to everybody.

Chris Boswell Fine Catering catered our wedding reception at the Embassy Theatre. Two years later we still have wedding guests commenting on how amazing the food was. Chris was great from the start to the finish, working very closely with our menu requirements, and making the food look and taste amazing even though we had tight budget requirements. Fabulous food, friendly personal attention, perfectly executed!"
